# Introduction

The data tables and listings in this report provide secondary school completion and dropout data at the district level as a supplement to *Secondary School Completion and Dropouts in Texas Public Schools, 2003-04* (Texas Education Agency [TEA], 2005a). This supplement includes annual dropout rates and longitudinal rates for secondary school graduates, continuing students, General Educational Development (GED) certificate recipients, and dropouts. District-by-district listings of 2003-04 annual dropout rates and completion rates for the class of 2004 are presented. Also included is a table with selected rates for the 20 largest school districts. A listing of the counts that make up the longitudinal cohort is also presented. This supplement also contains information on data quality; more information can be found in *Secondary School Completion and Dropouts in Texas Public Schools, 2003-04* (TEA, 2005a). A schematic is provided illustrating the relationship, at the district or campus level, of annual and longitudinal dropout counts. A district listing of year-to-year reporting of students is included. Tables are presented allowing comparisons of average annual dropout and longitudinal dropout rates for district groupings based on a variety of enrollment, staffing, and financial characteristics. For reference, a list of school districts in each Texas county is presented. Supplemental listings at the county and campus levels are available in *Secondary School Completion and Dropouts in Texas Public Schools, 2003-04: County Supplement* (TEA, 2005b) and *Secondary School Completion and Dropouts in Texas Public Schools, 2003-04: District and Campus Supplement* (TEA, 2005c).

## Calculations

All data used in this report were collected and reported by Texas school districts and charter schools through the Public Education Information Management System (PEIMS) maintained by the Texas Education Agency (TEA). The rate calculations are the same as those used in the Academic Excellence Indicator System (AEIS).

In this report, the annual dropout rate is the percentage of students who dropped out of either Grades 7-8, Grades 9-12, or Grades 7-12 during the 2003-04 school year.

$$\text{annual dropout rate} = \frac{\text{number of dropouts during the school year}}{\text{total number of students served during the school year}} \times 100$$

Dropouts are defined and counted according to the *2004-2005 Public Education Information Management System Addendum Version Data Standards* (TEA, 2004) and *Secondary School Completion and Dropouts in Texas Public Schools, 2003-04* (TEA, 2005a). The total number of students in the denominator is the cumulative number of students in attendance in the district at any time during the school year.

Longitudinal rates analyze student progress through high school. A cohort of students is tracked over a number of years, from the time students enter a specified grade until the fall following their anticipated graduation date. A cohort is identified by the starting grade and anticipated year of graduation. This report tracks the Grade 9 cohort, which consists of Texas public school students who attended Grade 9 for the first time in the 2000-01 school year and are expected to have graduated in spring 2004. The Grade 9 cohort includes both students who began ninth grade in a Texas public school in 2000-01 and all students who transferred into the group on grade level during the next four years.

A subset of the cohort, called a class, is used to calculate the longitudinal rates presented in this report. A class consists of members of a cohort less those who either transfer out of the Texas public school system or cannot be tracked. Each class is identified by the anticipated year of graduation. This report uses the class of 2004 to calculate longitudinal rates of the Grade 9 cohort. The longitudinal rates are based on the final statuses of students; therefore, only students from the cohort for whom final statuses are assigned are included as members of the class. The final status of each student is determined the year graduation was expected. The four possible statuses are: graduated, continued high school, received a General Educational Development (GED) certificate, and dropped out. The class of 2004 is identified as students who attended Grade 9 for the first time in the 2000-01 school year, who are expected to have graduated in spring 2004, and whose final statuses in the Texas public schools could be determined. Students who transferred out of the Texas public school system or could not be tracked were removed from the count of students in the class of 2004.

As an example, the longitudinal rate for graduates is calculated by dividing the number of students who graduated by the number of students in the class:

$$\text{longitudinal rate, graduated} = \frac{\text{number of students graduating by year 4}}{(\text{number of students entering Grade 9}) - (\text{transfers out}) + (\text{transfers in})} \times 100$$

Longitudinal rates for students who continued high school, GED certificate recipients, and dropouts are calculated in a similar manner. The sum of the four rates is equal to 100 percent.

Students who graduated, were continuing in high school, or earned GED certificates make up the completion rate for the class of 2004. This rate is a base indicator in Texas public school accountability and is denoted by the label Completion II. Completion I includes graduates and continuing students only. For further explanation of the completion rate, see *Secondary School Completion and Dropouts in Texas Public Schools, 2003-04* (TEA, 2005a).

Pasadena ISD	19,698	1.0	2,435	94.3	81.4	6.9	6.0	5.7
Brownsville ISD	19,143	1.4	2,367	94.3	77.8	13.6	2.8	5.7
Twenty largest districts								
Lowest		0.1		89.7	75.8	2.8	2.1	0.5
Average		0.9		95.6	83.9	8.1	3.6	4.4
Highest		2.2		99.5	92.9	13.6	6.0	10.3
State average		0.9		96.1	84.6	7.3	4.2	3.9

*Note.* The 20 largest districts represent approximately 33 percent of Grade 7-12 public school students in the state. Completion II consists of students who graduated, continued high school, or received GEDs. This value may not equal the sum of its parts due to rounding. GED = General Educational Development certificate. ISD = Independent school district.

## Notes on Tables 1 Through 6

### All Students

All students reported is a cumulative total of students served at the campus or in the district, county, or state during the school year.

### At-Risk

An at-risk student is one who was identified as at-risk of dropping out of school according to state statute (Texas Education Code [TEC] §29.081, 2004).

### Class

A class is a subset of a Grade 9 cohort (see **Cohort**) used to calculate longitudinal student status rates. A class consists of members of a Grade 9 cohort less those who transferred out of the Texas public school system or could not be tracked. A class is identified by a graduation year. For example, members of the class of 2004 are identified as students who attended Grade 9 for the first time in the 2000-01 school year and are expected to have graduated in spring 2004. The final status of each student is determined the year graduation was expected. Longitudinal rates are based on the four possible final statuses of students: graduated, continued high school, received a General Educational Development (GED) certificate, or dropped out. Only students in the cohort to whom final statuses are assigned are included as members of the class. Students who transfer out of the Texas public school system or could not be tracked are removed from the count of students in the class.

### Cohort

A cohort is defined as the group of students who began Grade 9 for the first time in the same school year plus all students who transferred into the Texas public school system on grade level during the next four years. To analyze student progress through high school, a cohort of students is tracked over five years, from the time they entered Grade 9 in the Texas public school system until the fall following their anticipated graduation date. Each cohort is identified by the starting grade and anticipated year of graduation. For example, members of the class of 2004 Grade 9 cohort were identified as students who attended Grade 9 for the

first time in the 2000-01 school year and were anticipated to graduate in spring 2004.

### Continuing Student

A continuing student is one who was enrolled in a Texas public school in the fall of the school year following expected graduation.

### Dropout

A dropout is defined and counted according to the *2004-2005 Public Education Information Management System Addendum Version Data Standards* (TEA, 2004) and *Secondary School Completion and Dropouts in Texas Public Schools, 2003-04* (TEA, 2005a). A student who dropped out, but later earned a diploma or General Educational Development (GED) certificate, or re-enrolled in school, is not counted as a dropout. Rather, the student is counted based on his or her final status.

### Economically Disadvantaged

An economically disadvantaged student is eligible for free or reduced-price lunch or eligible for other public assistance as defined in the *2004-2005 Public Education Information Management System Addendum Version Data Standards* (TEA, 2004). Eligibility for free or reduced-price lunch or other public assistance is reported for each student at the time of enrollment, and is used as a proxy for economically disadvantaged status.

### Ethnicity

Ethnicity is one of the demographic characteristics reported for each student at the time of enrollment.

### GED Recipient

A GED recipient is a student awarded a GED certificate.

### Graduate

A graduate is a student awarded a high school diploma by a Texas public school.

### Leaver

A leaver is a student reported by a district as having left school without graduating or dropping out. Leavers are defined according to the *2004-2005 Public Education Information Management System Addendum Version Data Standards* (TEA, 2004).

### Student Identification Error

A student identification error is a student record submitted to the agency with problematic identification information. The unique identifying

information of a student record permits year-to-year tracking of a student. A student identification error prevents tracking.

**Underreported Student**

An underreported student is one who was reported in attendance but for whom neither re-enrollment nor leaver information was reported subsequently.

**Figure 1**  
**Comparing Annual and Longitudinal Dropout Counts**  
**at the District or Campus Level**

**Figure 1**  
**Comparing Annual and Longitudinal Dropout Counts at the District or Campus Level**

This chart demonstrates how annual counts of official dropouts are related to the number of dropouts in the longitudinal rate at the district or campus level. The numbers provided in this chart are for illustration only. See facing page for a detailed explanation of each element in the chart.

## Notes on Table 7

*Note.* A district is listed on this table if any students in Grades 7-12 were enrolled in 2003-04. Methods of counting **Overreported**, **Underreported**, and therefore, **Reporting Total**, differed slightly in 1998-99 from 1997-98. This difference is due to slightly different matching criteria used between the two years.

### Dropout Records Reconciled

Students whose dropout records are considered reconciled were reported by districts as dropouts but were excluded from the **Dropout** count as a result of the student records matching process. These students were excluded from the dropout count if, for example, they were found in enrollment or attendance elsewhere in the Texas public school system or earned General Educational Development (GED) certificates.

### Leaver Records Reconciled

Students whose leaver records are considered reconciled were reported by districts as having left school but were excluded from the leaver count as a result of the student records matching process. These students were excluded from the **Official Leavers** count if, for example, they were found re-enrolled or in attendance elsewhere in the Texas public school system or had earned GEDs.

### Official Dropouts

Students counted as dropouts for accountability ratings are called **Official Dropouts**.

### Official Leavers

Students reported by districts as having left school without graduating or dropping out are called **Official Leavers**.

### Overreported

These are students reported as graduates, dropouts, or other leavers in the fall data submission of the next year, although the students had not been reported as enrolled or in attendance in the district during the year.

### Reported Graduates

These are students reported as graduates on the leaver record in the fall data submission of the next year.

### Reporting Total

The **Reporting Total** is the total number of records for students in Grades 7-12 who: (a) were reported in enrollment or attendance; or (b) were not reported in enrollment or attendance but were reported as graduates, dropouts, or other leavers in the fall data submission of the next year.

### Returning Students

**Returning Students** are those students reported in enrollment or attendance in the current school year who were reported to have re-enrolled in the same district by January of the next school year.

### Underreported

These are students reported in enrollment or attendance for whom neither re-enrollment nor leaver information was reported in the fall data submission of the next year. The **Percent Underreported** is calculated by dividing the **Number of Underreported** students by the **Reporting Total** and multiplying by 100:

$$\text{Percent Underreported} = \frac{\text{Underreported}}{\text{Reporting Total}} \times 100$$

## **Rates by District Characteristic**

**Table 8**  
**Annual Dropout Rates, Grades 7-12,**  
**by District Characteristic, Texas Public Schools, 2003-04**

## Notes on Tables 8 and 9

**Source.** Data about teachers, district expenditures, and students are from the Public Education Information Management System (PEIMS). Tax and property data are provided by the Comptroller's Property Tax Division. Information about college admissions examinations (SAT I and ACT) and the Texas Assessment of Knowledge and Skills (TAKS) is provided by the test contractors. All data are for the 2003-04 school year, with the exception of college admissions and district expenditures, which lag one year.

### All Students

All students reported is a cumulative total of students served at the campus, or in the district, county, or state, during the school year.

### Class

A class is a subset of a Grade 9 cohort used to calculate longitudinal student status rates. A class consists of members of a Grade 9 cohort less those who transferred out of the Texas public school system or could not be tracked. A class is identified by a graduation year. For example, members of the class of 2004 are identified as students who attended Grade 9 for the first time in the 2000-01 school year and are expected to have graduated in spring 2004. The final status of each student is determined the year graduation was expected. Longitudinal rates are based on the four possible final statuses of students: graduated, continued high school, received a General Educational Development (GED) certificate, or dropped out. Only students in the cohort to whom final statuses are assigned are included as members of the class. Students who transfer out of the Texas public school system or could not be tracked are removed from the count of students in the class.

### Continuing Student

A continuing student is one who was enrolled in a Texas public school in the fall of the school year following expected graduation.

### Cost of Education Index

The Cost of Education Index (CEI) reflects geographic variations in costs beyond the control of districts. This category classifies districts into

five groups, each with approximately the same number of districts. The CEI has a minimum value of 0.0 and a maximum of 1.2. Most districts have a CEI value of at least 1.0. Districts with a CEI value of 0.0 are primarily charter school districts.

### District Type

Districts are grouped into one of eight subcategories ranging from major urban to rural. Charter school districts are in a separate subcategory. Factors such as enrollment, growth rates, economically disadvantaged status, and proximity to urban areas are used to group districts into the appropriate subcategory. The subcategories are:

**Major Urban.** The largest districts in the state that serve the six metropolitan areas of Houston, Dallas, San Antonio, Fort Worth, Austin, and El Paso. A district is major urban if it is the largest district in a county with a population of 650,000 or over, and at least 35 percent of students in the district are economically disadvantaged. If a district is not the largest district in the county, it may also be major urban if its enrollment is 75 percent of the largest district, and at least 35 percent of the students are economically disadvantaged.

**Major Suburban.** Other districts in and around the major urban areas. A district is major suburban if it is contiguous to a major urban district, and its enrollment is at least 3 percent of the major urban district or at least 4,500. If a district is not contiguous to a major urban area, it must be within the same county and have an enrollment of 15 percent of the major urban district or have an enrollment of at least 4,500 to be major suburban.

**Other Central City.** The major districts in other large Texas cities. If a district is not contiguous to one of the major urban districts but the county population is between 100,000 and 650,000, and it is the largest district in the county or its population is 75 percent of the largest district, then it is other central city.

**Other Central City Suburban.** Other districts in and around the other large, but not major, Texas cities. If a district is in a county with a population between 100,000 and 650,000, and its enrollment is at least 15 percent of the largest district in the county, then it is other central city suburban. A district can also be other central city suburban if it is contiguous to a central city district, its population is greater than 3 percent of that district,

and its enrollment exceeds the state median of 698 students.

*Independent Town.* A district is designated as independent town if it is the largest district in a county with a population of 25,000 to 100,000, or if its enrollment is greater than 75 percent of the largest district.

*Non-Metropolitan: Fast Growing.* A district not designated in any of the above subcategories is non-metropolitan: fast growing if it has a 5-year growth rate of at least 20 percent and at least 300 students enrolled.

*Non-Metropolitan: Stable.* A district not designated in any of the above subcategories is non-metropolitan: stable if its enrollment exceeds the state median of 698 students.

*Rural.* A district not designated in any of the above subcategories is rural. These districts either have a growth rate of less than 20 percent and an enrollment between 300 and the state median of 698 students, or have an enrollment of less than 300 students.

*Charter Schools.* The 190 open-enrollment schools granted a charter by the State Board of Education for operation during the 2003-04 school year. Open-enrollment charter schools operate in a facility of a commercial or nonprofit entity or a school district.

### **Dropout**

A dropout is defined and counted according to the *2004-2005 Public Education Information Management System Addendum Version Data Standards* (TEA, 2004) and *Secondary School Completion and Dropouts in Texas Public Schools, 2003-04* (TEA, 2005a). A student who dropped out, but later earned a diploma or General Educational Development (GED) certificate, or re-enrolled in school, is not counted as a dropout. Rather, the student is counted based on his or her final status.

### **Economically Disadvantaged**

An economically disadvantaged student is eligible for free or reduced-price lunch or eligible for other public assistance as defined in the *2004-2005 Public Education Information Management System Addendum Version Data Standards* (TEA, 2004). Eligibility for free or reduced-price lunch or other public assistance is reported for each student at the time of enrollment, and is used as a proxy for

economically disadvantaged status. (See also **Pupils: Percent Economically Disadvantaged**.)

### **Education Service Center Regions**

The state is divided into 20 geographic regions, each served by an Education Service Center (ESC). The ESC region used in this category is the region from which the district receives services, not the geographically assigned ESC region. For the vast majority of districts, these are the same.

### **Enrollment**

Districts are grouped by size into nine subcategories. Size is determined by the total number of students in membership in the district on a day in late October of each year. It does not include students served by a district but not in membership in the serving district.

### **Ethnicity**

Ethnicity is one of the demographic characteristics reported for each student at the time of enrollment.

### **GED Recipient**

A GED recipient is a student awarded a GED certificate.

### **Graduate**

A graduate is a student awarded a high school diploma by a Texas public school.

### **Highest Property Value**

Property is grouped into four subcategories based on how it is used. The subcategory with the greatest total property value for a district determines the subcategory in which the district is placed. The 6 special statutory and 190 charter school districts are in a separate subcategory because they have no taxable property wealth. The four subcategories are:

*Residential.* Single-family and multi-family residential, and residential inventory

*Land.* Vacant lots and taxable rural real

*Oil and Gas.* Oil, gas, and minerals

*Business.* Commercial and industrial real, commercial and industrial personal, and utilities.

### **Operating Cost Per Pupil**

Operating costs are the sum of all actual expenditures for a district's operation, for all reported funds. The operating expenditures are a subset of the total expenditures; they do not include debt service, capital outlay, or ancillary services

expenditures. Per-student amounts equal the prior school year expenditures divided by the current number of students. Districts are grouped into five subcategories, each with approximately the same number of districts.

### **Property Wealth: Average, Equal Pupil Groups, and Median**

Property wealth is the total taxable property value divided by the total number of students and is used as an indicator of a district's ability to raise local funds on a per pupil basis. The property value used is for the last completed calendar year, i.e., 2003. The taxable value is the traditional measure of value, not the alternative value used in state funding formulas. The total number of students is for the current school year, i.e., 2003-04. The property wealth: average category shows districts above and below state average wealth. The property wealth: equal pupil groups category classifies districts into 20 subcategories, each with approximately the same number of students. The property wealth: median category groups districts into 10 subcategories, each with approximately the same number of districts. In all 3 categories, the 6 special statutory and 190 charter school districts are in a separate subcategory because they have no taxable property wealth.

### **Pupil Change: 2002-03 – 2003-04**

This category reports the variation in student enrollment over a one-year period. One subcategory designates districts with declining enrollment, while the remaining subcategories designate districts with growth rates ranging from "0%-3%" to "10% and over."

### **Pupil Density**

Pupil density is the number of students per square mile. Subcategories range from "fewer than 5 students per square mile" to "100 or more students per square mile." The 6 special statutory and 190 charter school districts form a separate subcategory because they do not have mileage information.

### **Pupils: Percent African American, Hispanic, and Nonwhite**

These categories group districts according to the ethnic composition of their student enrollments. Each category has 6 subcategories ranging from "under 5%" to "50 percent and over." Nonwhite is the sum of all nonwhite populations — Native American or Alaskan Native; Asian or Pacific Islander; African American, not of Hispanic origin; and Hispanic — expressed as a percent of the total population.

### **Pupils: Percent Economically Disadvantaged**

This category groups districts by the number of students reported as economically disadvantaged, expressed as a percentage of the total number of students. Districts fall into 6 subcategories ranging from "under 20%" to "80% and over." Districts report students as economically disadvantaged if they meet any of the following conditions:

- eligible for free or reduced-price meals under the National School Lunch and Child Nutrition Program;
- from a family with an annual income at or below the federal poverty line;
- eligible for Temporary Assistance to Needy Families (TANF) or other public assistance;
- recipients of a Pell Grant or comparable state program of need-based financial assistance;
- eligible for programs assisted under Title II of the Job Training Partnership Act; or
- eligible for benefits under the Food Stamp Act of 1977.

### **SAT I/ACT: Percent Scoring At or Above Criterion**

Districts are grouped into five subcategories based on the percentage of examinees in the prior year who scored at or above the criterion score for either the SAT I or ACT. The SAT I Total criterion score is 1110 and the ACT Composite criterion score is 24. The percentage equals examinees meeting the criterion divided by all examinees. A sixth subcategory designates districts with no test takers.

### **SAT I/ACT: Percent Taking**

Districts are grouped into three subcategories based on the percentage of non-special education graduates who took the SAT I, ACT, or both in the prior year. A fourth subcategory designates districts with no graduates.

### **Small/Sparse Adjustment**

Districts are grouped into four small/sparse subcategories, each with approximately the same number of districts. This category shows small/sparse adjustments as a percent of total adjusted basic allotment amounts, a measure of the extent to which state funding is adjusted to compensate for small and/or sparsely populated districts. A fifth subcategory contains all districts receiving no small/sparse adjustment.

**TAKS: Percent Passing All Tests Taken**

The percentage of students in grades 3-11 who passed all TAKS sections taken out of the number of students in those grades taking one or more tests. The percentages include only students enrolled in the district in October of the school year. Districts are grouped into 5 subcategories, ranging from “under 53.9%” to “76.1% and over,” with a 6th subcategory for districts that did not administer the test.

**Tax: Local Adopted Rate**

This category shows the total locally adopted tax rate. Districts are grouped into four subcategories, each with approximately the same number of districts. The 6 special statutory and 190 charter school districts are in a separate subcategory because they do not levy property taxes.

**Tax: Local Maintenance & Operations Rates**

This category shows the maintenance and operation (M&O) adopted tax rate. The M&O levy includes money generated by districts for equalizing wealth. Districts are grouped into four subcategories. The 6 special statutory and 190 charter school districts are in a separate subcategory because they do not levy property taxes.

**Teacher Experience**

Each teacher's FTE count is multiplied by years of experience. These figures are summed for all

teachers within a district and then divided by the district's total teacher FTE count, resulting in the average years of teacher experience. This category groups districts into four subcategories, each with approximately the same number of districts.

**Teacher Salary**

A district's average teacher salary is calculated by dividing the total salary of teachers by the total FTE count of teachers. Salaries reflect regular duties only and do not include pay for supplemental duties. This category groups districts into four subcategories, each with approximately the same number of districts.

**Teachers: Percent Nonwhite**

This category groups districts based on the number of teachers of selected ethnicities. This percent is calculated by dividing nonwhite — Native American or Alaskan Native; Asian or Pacific Islander; African American, not of Hispanic origin; and Hispanic — teacher FTEs by total teacher FTEs. The category has 6 subcategories ranging from “under 5%” to “50% and over.”

**Teachers: Percent with Advanced Degrees**

The percent of teachers with advanced degrees is calculated by dividing the FTE count of teachers with a master's degree or doctorate by the FTE count for all teachers. This category groups districts into four subcategories, each with approximately the same number of districts.

# Compliance Statement

## **Title VI, Civil Rights Act of 1964, the Modified Court Order, Civil Action 5281, Federal District Court, Eastern District of Texas, Tyler Division.**

Reviews of local education agencies pertaining to compliance with Title VI Civil Rights Act of 1964 and with specific requirements of the Modified Court Order, Civil Action No. 5281, Federal District Court, Eastern District of Texas, Tyler Division are conducted periodically by staff representatives of the Texas Education Agency. These reviews cover at least the following policies and practices:

1. acceptance policies on student transfers from other school districts;
2. operation of school bus routes or runs on a nonsegregated basis;
3. nondiscrimination in extracurricular activities and the use of school facilities;
4. nondiscriminatory practices in the hiring, assigning, promoting, paying, demoting, reassigning, or dismissing of faculty and staff members who work with children;
5. enrollment and assignment of students without discrimination on the basis of race, color, or national origin;
6. nondiscriminatory practices relating to the use of a student's first language; and
7. evidence of published procedures for hearing complaints and grievances.

In addition to conducting reviews, the Texas Education Agency staff representatives check complaints of discrimination made by a citizen or citizens residing in a school district where it is alleged discriminatory practices have occurred or are occurring.

Where a violation of Title VI of the Civil Rights Act is found, the findings are reported to the Office for Civil Rights, U.S. Department of Education.

If there is a direct violation of the Court Order in Civil Action No. 5281 that cannot be cleared through negotiation, the sanctions required by the Court Order are applied.

## **Title VII, Civil Rights Act of 1964 as Amended by the Equal Employment Opportunity Act of 1972; Executive Orders 11246 and 11375; Equal Pay Act of 1964; Title IX, Education Amendments; Rehabilitation Act of 1973 as Amended; 1974 Amendments to the Wage-Hour Law Expanding the Age Discrimination in Employment Act of 1967; Vietnam Era Veterans Readjustment Assistance Act of 1972 as Amended; Immigration Reform and Control Act of 1986; Americans With Disabilities Act of 1990; and the Civil Rights Act of 1991.**

The Texas Education Agency shall comply fully with the nondiscrimination provisions of all federal and state laws, rules, and regulations by assuring that no person shall be excluded from consideration for recruitment, selection, appointment, training, promotion, retention, or any other personnel action, or be denied any benefits or participation in any educational programs or activities which it operates on the grounds of race, religion, color, national origin, sex, disability, age, or veteran status (except where age, sex, or disability constitutes a bona fide occupational qualification necessary to proper and efficient administration). The Texas Education Agency is an Equal Opportunity/Affirmative Action employer.
