The weeks need not be consecutive. • The student is confined at home or hospital bedside for medical reasons only. • The student must have a medical condition that is documented by a physician licensed¹ to practice in the United States. Except in cases of medically fragile students, potential medical conditions or concerns that students may develop medical conditions do not constitute grounds for GEH program eligibility. <p>A student served through the GEH program at home or hospital bedside must be served by a certified general education teacher. Over the period of his or her confinement, the student must be provided instruction in all core academic subject area courses in which the student is enrolled. In addition, over the period of confinement, the student should be provided instruction in all other courses the student is enrolled in, if possible. Addition	<p>3.8 Calendar</p> <p>Note: To include tutorial time that occurs before or after school in your operational minute calculation, the campus would need to remain open and available to all students who wish to receive the additional instruction and instruction must be provided to all students who remain on campus. If you provide transportation, you must ensure that before- and/or after-school transportation options are available to students who wish to participate in the tutorial instruction. Planning extracurriculars, including athletics, during this time is prohibited because it would restrict access to the tutorial time for those participants.</p>
Revision	<p>3.8 Calendar</p> <p>Note: Since school districts and charter schools—as part of the TSDS PEIMS Summer submission—do not report their calendars to TEA until after the school year is complete, districts may not realize they are subject to a funding reduction until time has expired to correct their calendars. Therefore, ensure that you have the required number of minutes/days built into your school board-approved calendar.</p> <p>Charter schools operating before January 1, 2015, are not subject to the 75,600-minute requirement. However, charter schools operating before January 1, 2015, must provide 180 days of attendance with a minimum of four hours of daily instruction with any applicable waivers and complying with their charter contract terms regarding student instruction time. Also, districts or charter schools operating under the provisions in the TEC, §48.005(i-l),² are eligible to receive full ADA funding in accordance with the operational and/or instructional minutes listed.</p> <p>¹ TEC, §48.005(i-l)</p>

Revision	<p><i>4.3.3 Enrollment Procedures for a Student Who Is New to Your District but Who Was Not Previously Receiving Special Education Services</i></p> <p>2. When a student transfers from a school district in another state in the same school year and the parents verify that the student was receiving special education services in the previous school district or the previous school district verifies in writing or by telephone that the student was receiving special education services, the new school district must meet the requirements of 34 CFR, §300.323(f), regarding the provision of special education services. Specifically, your district must provide a FAPE to the student, including services comparable to those described in the student’s IEP from the previous district, until the ARD committee:</p> <ul style="list-style-type: none"> • determines that an evaluation is necessary. A FIE must be completed within the timelines established by 19 TAC §89.1011(c) and (e), and your district must meet the requirements in 34 CFR, §300.323(f)(2), if appropriate, within 30 calendar days from the date of the completion of the evaluation report.
Revision	<p>4.4 Special Education Dismissal Procedure</p> <p>A student is dismissed from special education and related services when the ARD committee determines the student is no longer a child with a disability and, therefore, no longer eligible for special education services. A district must also provide the parent with prior written notice upon receipt of the parent’s written revocation of consent for the continued provision of special education services. The district must provide prior written notice at least five school days before special education services will be discontinued, unless the parent agrees otherwise.⁵ A school must not discontinue services until prior written notice has been provided. The ARD committee must provide the effective date of the special education and related services dismissal to appropriate district personnel as soon as possible, and district personnel must record the effective date of the special education and related services dismissal in the attendance accounting system. The effective date, which is stated in the IEP, the prior written notice, or both, is the date that special education and related services end.</p>

This also resulted in a change to the term “English learner (EL)” used in 19 TAC Chapter 89, Subchapter BB. These terms describe the same group of Texas students. An emergent bilingual student is in the process of acquiring English and has another language as the student’s primary or home language. As PEIMS is revised to reflect these changes, the terms of “emergent bilingual (EB)” and “English learner (EL)” may be bridged as EB/EL, and the data element names may still indicate the use of LEP during the transition. It is important to note that “English learner” is still used in federal regulations and guidance.</p>

Addition	<h3 style="color: #0056b3;">Section 6 Bilingual/English as a Second Language</h3> <p>As a result of Senate Bill 2066 in the 2021 legislative session, the term “emergent bilingual student” replaces the term “limited English proficient (LEP) student” used in the TEC, Chapter 29, Subchapter B. This also resulted in a change to the term “English learner (EL)” used in 19 TAC Chapter 89, Subchapter BB. These terms describe the same group of Texas students. An emergent bilingual student is in the process of acquiring English and has another language as the student's primary or home language. As PEIMS is revised to reflect these changes, the terms of “emergent bilingual (EB)” and “English learner (EL)” may be bridged as EB/EL, and the data element names may still indicate the use of LEP during the transition. It is important to note that “English learner” is still used in federal regulations and guidance.</p>

Revision	<p>Section 6 Bilingual/English as a Second Language</p> <p>The terms “exit,” as used in this section, is interchangeable with the term “transfer,” used in the TEC, Chapter 29, Subchapter B. A distinction has been made to clarify the difference between the use of the terms “reclassification” and “exit” in alignment with 19 TAC Chapter 89, Subchapter BB. Reclassification is the process for emergent bilinguals (EBs) who have met criteria to be identified as non-LEP/English Proficient (EP), and “exit” describes the process for reclassified students to no longer participate in a bilingual or ESL program.</p>

Revision	<p>6.2 Identification of English Learners (ELs)/Enrollment Procedures</p> <p>Upon enrollment in a Texas public school, a student’s parent completes a home language survey (HLS), indicating the language used in the home most of the time and the language used by the student most of the time (see 6.10.1 Home Language Survey Requirements). Students in grades nine through 12 may complete the home language survey themselves. In cases where a parent indicates more than one language in response to question 1 and/or question 2 of the HLS, it is the district’s responsibility to contact the parent and explain to the parent that the question is asking which language is used <u>most</u> of the time and seek clarification in a language the parent understands. If the parent is physically present, the parent can document the change on the HLS. If the parent is being contacted via a phone call, a school staff member can document the parent’s response on the HLS.</p> <p>Parents may request a correction on the HLS only if the child has not yet been assessed for English proficiency.</p>

Addition	<p>11.5 Additional Days School Year (ADSY)</p> <p>In June 2019, the passage of House Bill 3 (HB3) by the 86th Texas Legislature added half-day formula funding for school systems that add instructional days to any of their elementary schools starting in the 2020–2021 school year (TEC, §48.0051). Districts will generate half-day funding for each instructional day after their 180th instructional day up to their 210th instructional day. ADSY funding is available at the campus level. To be eligible for ADSY funding, a campus must meet the following requirements:</p> <ul style="list-style-type: none"> • Serve any grade level of pre-K to 5th grade students. • Have a school calendar with at least 180 instructional days and add up to 30 additional days. • Have a school calendar with at least 75,600 operational minutes. • Have a certified teacher deliver at least two hours of instruction on designated ADSY days. • Designate ADSY days as non-compulsory separate from the traditional instructional calendar. <p>11.5.1 ADSY Program Design</p> <p>Districts may implement an ADSY program that utilizes anywhere from one to 30 additional days and with design flexibility as long as it meets the requirements above. For example, a district may host ADSY days for a jump-start program prior to the start of school, a traditional summer program, an intersessional program placed throughout the year, or a full year redesign. ADSY days may occur at any point throughout the academic year. However, districts are not able to combine two ADSY days into one so that they can have a 15 “full instructional day” program.</p> <p>Professional development waivers do not count towards the required 180 days of instruction. If an LEA applies for and receives a missed school day waiver, the day(s) will count towards the 180-day total under the TEC, §48.0051 (c). To be eligible for a missed school day waiver, an LEA must first make up two missed days through bad weather makeup days, not solely instructional minute accumulation. Further information on missed school day waivers can be found in 3.8.1 Makeup Days and Waivers.</p>

Additionally, the funding for the additional days will go the campus in which the student is officially enrolled, even if the services are offered at a different location.</p> <p>If all the criteria are met for the additional days of incentive funding, a school district or charter school that is entitled to both the incentive and the funding for a campus under the TEC, §48.252, may receive only the incentive or the funding for the campus under the TEC, §48.252, whichever would result in the greater amount of funding.</p> <p><i>11.5.3 Additional ADSY Information</i></p> <p>More information on ADSY can be found on the ADSY web page, including an FAQ addressing common questions for ADSY design, implementation, and logistics.</p>

Revision	<p>12.3 Remote Instruction That Is Not Delivered through the TXVSN</p> <p>Under current agency rules and policies, remote instruction that is not delivered through the TXVSN is not eligible for state funding and generation of ADA, except for classes taken through distance learning while a student is in attendance at a regular school campus. (For example, a child was in close contact with COVID-19 more than twice over the course of the year, and the family opted to follow the stay-at-home recommendations each time.) Waivers will be granted on a case-by-case basis. A waiver will not be granted if the student is unable to attend school for a reason other than a medical condition, such as confinement at home for disciplinary reasons.</p> <p>Students participating through remote conferencing will generate attendance in the following ways:</p> <ul style="list-style-type: none"> • Students in grades pre-K to five must receive the equivalent of four hours of instruction with at least two hours of synchronous instruction each school day. This instruction does not need to be consecutive. • Students in grades six to twelve must receive at least four hours of instruction through synchronous instruction each school day. This instruction does not need to be consecutive. <p>Additionally, attendance will be generated based on whether the student is virtually “present” at the official attendance-taking time. The student’s attendance must be marked Remote Synchronous - Present in the LEA’s local student management system. Revision	<p><i>12.3.2 Remote Conferencing—Special Education Students</i></p> <p>In this subsection, remote conferencing means remote instruction 1) in which a student at an off-campus location is able to virtually participate in classes provided by a teacher on the student’s campus or 2) in which a student at an on- or off-campus location receives instruction or special education services from an appropriately credentialed individual who is at a different location. An example of a situation described by item 2 is one in which a student in a campus classroom receives speech therapy via remote instruction from an appropriately credentialed individual who is not on the student’s campus. The instruction cannot be concurrent, which means remote students must not be taught by a teacher who is also teaching in-person students at the same time.</p>
Revision	<p><i>12.3.2 Remote Conferencing—Special Education Students</i></p> <p>If your school district provides instruction through remote conferencing to a special education student for all or part of the school day, your district may count that instruction as classroom time for FSP funding purposes, including in the calculation of contact hours. To do so, the following conditions must be met:</p> <ul style="list-style-type: none"> • The student’s ARD committee must have determined, in a manner consistent with state and federal law,²⁶ that the remote instruction to be provided is required for the provision of a Free and Appropriate Public Education (FAPE). • The ARD committee must have documented that determination in the student’s individualized education program. • The total amount of remote conferencing instruction does not exceed more than 20 instructional days over the entirety of the school year. <p>Note: If a student’s ARD committee determines that instruction through remote conferencing is required for the provision of FAPE, that determination does not necessarily mean that the student’s instructional setting code will change with the provision of the instruction through remote conferencing. The student’s instructional setting code may stay the same if the actual instruction and services the student is receiving will remain the same and all that will change is the means of delivery of that instruction. In determining what instructional setting code to use for the student, the ARD committee should consider the type of instruction and services being provided instead of the physical location of the student. Please also note that any change resulting in a change in placement for a student served by special education requires the ARD committee to meet to address the change in placement and document it in the student’s IEP, generally within 10 school days.</p> <p>If the ARD committee determines that remote conferencing should be needed for longer than 20 instructional days over the entirety of the school year, a waiver request must be submitted for an extension of remote conferencing beyond the allowable cumulative 20 instructional day period. This instruction does not need to be consecutive. • Students in grades six to twelve must receive at least four hours of instruction through synchronous instruction each school day. This instruction does not need to be consecutive. <p>Additionally, attendance will be generated if the student is virtually “present” at the official attendance-taking time if the student is scheduled to be off-campus at that time. The student’s attendance must be marked Remote Synchronous - Present in the LEA’s local student management system.</p> <p>Both on-campus instructional time and remote conferencing instructional time can be included when calculating two-through-four-hour rule eligibility provided the remote instruction is provided synchronously, which means two-way, real-time/live virtual instruction between teachers and students. Addition	<p>12.6 Virtual Instruction (Local Remote Learning Programs under the TEC, §29.9091, or as Modified by the TEC, §48.007(c))</p> <p><i>12.6.1 Methods of Virtual Instruction</i></p> <p>Virtual instruction may take one of the following three forms.</p> <p>The first form is remote synchronous instruction. The method of instruction involves two-way, real-time/live, virtual instruction between teachers and students when students are not on campus. In this method, the required amount of instructional time is scheduled each day, and funding is generated when attendance is recorded daily at a locally selected snapshot time. Synchronous instruction is provided through a computer or other electronic device or over the phone.</p> <p>The second form is remote asynchronous instruction. This method of instruction involves instruction that does not require having the instructor and student engaged at the same time. In this method, students learn from instruction that is not necessarily being delivered in person or in real time. This type of instruction may include various forms of digital and online learning, such as prerecorded video lessons or game-based learning tasks that students complete on their own, and pre-assigned work and formative assessments made available to students.</p> <p>The third form is a combination of both synchronous and asynchronous instruction.</p> <p>A board-approved local policy will determine the instruction methods (i.e., synchronous, asynchronous, or a combination of both). The local policy should include the official attendance times for synchronous instruction. Additionally, if the board policy indicates approval for asynchronous method, the LEA must create an asynchronous instructional plan (described more fully below) and it must be publicly posted on the LEA’s website.</p>

	<p>No matter which of these methods of instruction is used, all instruction must address the required curriculum per the TEC, §28.002, and meet the needs of students in special population/intervention groups.</p> <p><i>12.6.2 Student Eligibility for ADA Funding</i></p> <p>12.6.2.1 Eligibility Based on the Preceding School Year</p> <p>Each of the following three conditions must be met if the student was a virtual student during the preceding school year. A student is considered to have been a virtual student during the preceding year if 50 percent or more of their instructional days were attended remotely (i.e., marked either Remote Synchronous - Present or Remote Asynchronous - Present for that day) compared to the total number of instructional days offered for the school year. The three conditions are:</p> <ul style="list-style-type: none"> • The student achieved satisfactory performance or higher on each STAAR assessment taken during the preceding school year. • The student earned a C or higher in each of the foundation curriculum courses under the TEC, §28.002, (i.e., mathematics, science, English language arts and reading, and social studies) taken virtually or remotely during the preceding school year. (Note: End-of-year course grades for all foundation curriculum courses for which a student received 50 percent or more of their instructional days via remote instruction must be considered under this criterion.) • The student had 10 percent or fewer unexcused absences during the preceding school year in total for all instructional methods offered (i.e., on-campus, remote synchronous and remote asynchronous). <p>If a student was not a virtual student during the preceding school year (i.e., less than 50 percent of the student’s instructional days were attended remotely), the student is eligible to receive ADA funding for virtual instruction for the current school year regardless of the three conditions noted above.</p> <p>The restriction on funding based on the prior year criteria only applies to remote instruction funding. Students served on campus are eligible to earn average daily attendance for the current year even if that student does not meet the conditions for enrollment in a virtual course listed above.</p> <p>12.6.2.2 Eligibility Based on the Current School Year</p> <p>For the purposes of determining if a student continues to be eligible for ADA funding in a remote setting within the current school year, the student may no longer be counted for virtual ADA funding once the student has 10 or more unexcused absences in a six-month period in the current school year while enrolled in remote instruction. Once this threshold is reached, the student may continue to receive instruction remotely but will not generate ADA funding. If the student returns to on-campus instruction, the student will continue to be eligible to generate ADA funding.</p>

	<p>In an instance where a student is no longer eligible for remote ADA funding and returns to on-campus instruction, eligible remote days of attendance and associated funding generated before the 10-absence threshold was reached are unaffected by the change in the student’s remote instruction eligibility status. If the LEA continues to serve such a student remotely, then the student would be ineligible to generate ADA in a remote setting after their tenth absence and would need to have their ADA eligibility code designated as ADA Code 9 - Enrolled, Not In Membership Due To Virtual Learning from that point forward.</p> <p>12.6.2.3 Limits on Total Remote Participation ADA</p> <p>Except as described by the TEC, 48.0071(c), and below, an LEA that operates a local remote learning program may not enroll in the program a number of students that exceeds 10 percent of the total number of students enrolled in the LEA during the 2021–2022 or the 2022–2023 school years. Any students enrolled for at least a portion of the year in local remote instruction count toward this cap. Additionally, any student who receives remote instruction under an alternative to local remote instruction for a majority of their instructional time during the year would count toward this cap, which would include students who meet one of the following criteria:</p> <ul style="list-style-type: none"> • The student is medically fragile. • The student has been placed in a remote learning setting by an ARD committee. • The student is receiving accommodations under Section 504. • The student is served via remote conferencing as described in 12.3 Remote Instruction That Is Not Delivered through the TXVSN. • The student is served via any other remote methods approved under this handbook, except for full-time virtual school students described in 12.2 TXVSN FSP. <p>Regular program and special program ADA for remote students that exceed this 10 percent limit will be reduced from an LEA’s total ADA counts in proportion by which the 10 percent limit was exceeded. LEAs can serve students over the 10 percent limit. However these students will not receive ADA funding and should be coded as ADA code 9 – Enrolled, Not in Membership Due to Virtual Learning.</p> <p>12.6.2.4 Exception to Limit on Total Remote Participation ADA: LEAs eligible under the TEC, §48.0071(c)</p> <p>LEAs eligible to provide remote learning under the TEC, §48.0071(c), may exceed the 10 percent limit on enrollment noted above. LEAs must submit a request to the agency and be approved as eligible for this exception. The waiver request must include an explanation of how the LEA advertised that its remote learning program is for students statewide. The request must also show evidence that at least 10 percent of the prior year virtual students in the program resided outside the LEA’s geographic boundaries. This section applies only to the 2021–2022 and 2022–2023 school years and expires on September 1, 2023.</p>

	<p><i>12.6.3 Attendance Taking and Minutes Requirements</i></p> <p>In order for students to earn ADA funding, LEAs must continue to comply with the two-through-four-hour rule and provide students the minimum instruction to earn half-day or full-day funding. The information below focuses on the minimum for full-day funding; divide the requirements in half in order to earn half-day funding for eligible students.</p> <p>For both synchronous and asynchronous instruction, there are two requirements.</p> <ul style="list-style-type: none"> • Daily attendance must be taken. Each school day, LEAs will identify students who are participating in the local remote virtual option as Remote Synchronous (RS) Eligible Days Present or Remote Asynchronous (RA) Eligible Days Present, depending on the student's instructional method. Days Present will need to be identified as days present in the RS method or days present in the RA method. Absences will not need to be distinguished between instructional methods. • The minimum 240 instructional minutes requirement must be met. Both synchronous and asynchronous instruction require that at least 240 instructional minutes are offered to each student each school day in order for the student to earn a full day of funding. At least 120 instructional minutes are offered to earn a half day of funding. Students enrolled in pre-K are not eligible for ADA if served via remote instruction. <p>12.6.3.1 Remote Synchronous Instruction</p> <p>Requirement 1: Attendance Taking</p> <p>In a remote synchronous teaching and learning method, students who are logged in at the teacher’s documented official attendance time are marked present for that day. Students who are not logged in at the teacher’s documented official attendance time are marked absent.</p> <p>For remote synchronous instruction, teachers will take and post attendance as if the student was physically present in the on-campus classroom daily. The student’s camera must be turned on, and the teacher must see the student in order to mark the student present. Just as with traditional on-campus attendance, official attendance will be taken at a certain time determined by the LEA’s policy. If the teacher cannot confirm that the student is physically present at the attendance taking time, the student will be marked absent under this option and generate zero funding for the day. A student who is found later to have participated synchronously or asynchronously but was not present during the official attendance taking time is still absent for funding purposes of synchronous attendance for that day.</p> <p>Requirement 2: Minimum 240 Instructional Minutes</p>

2021–2022 Student Attendance Accounting Handbook: Change Document

Type of Change	Changes to 2021–2022 SAAH
	<p>A program meets the remote synchronous method requirements for full-day funding if the daily instructional minute minimum of 240 minutes is provided through the synchronous instruction method, even if part of the day includes additional time for asynchronous activities. However, attendance must be taken during synchronous instruction at the official attendance time. The daily instructional minutes need not be consecutive. LEAs should maintain documentation of remote synchronous instruction provided to students through instructional schedules that show the number of minutes each day students are expected to engage in remote synchronous instruction.</p> <p>Time students spend participating in work-based learning opportunities can continue to be included in the daily instructional minute calculation and can be considered a synchronous instruction method. Work-based learning opportunities include internships, externships, apprenticeships, and mentorships.</p> <p>This method also allows students who are taking CTE courses to continue teacher-led instruction and generate CTE funding. Special education students who are coded mainstream can receive their regular instruction and special education services through this remote synchronous instruction method as well, unless their IEPs reflect that the services must be provided on campus.</p> <p>12.6.3.2 Remote Asynchronous Instruction</p> <p>This method allows LEAs the flexibility to earn daily attendance through primarily asynchronous instructional methods OR through a combination of asynchronous and synchronous instruction. LEAs should use this method to track attendance if students are not receiving the minimum number of synchronous instructional minutes required by the synchronous instruction method. In the asynchronous instruction method, the LEA ensures students have access to the required number of daily instructional minutes by planning for and keeping documentation of the daily attendance measure, instructional schedule and materials, progress monitoring, and teacher supports the students receive in order to earn daily attendance.</p> <p>Requirement 1: Attendance Taking</p> <p>Measurement frequency is daily and may occur from 12:00 am to 11:59 pm every day the campus is open or in a narrower daily time window as determined by the local plan. Daily measurement options for attendance include the following:</p> <ul style="list-style-type: none"> • daily progress in the learning management system (LMS) that confirms students accessed instruction, as defined by the LEA • daily check in via teacher-student interactions that confirms students accessed instruction, as defined by the LEA • completion/turn-in of assignments from student to teacher (potentially via email or online) <p>LEAs must maintain documentation to support the daily attendance a student has earned.</p>

Type of Change	Changes to 2021–2022 SAAH
	<p>The locally defined student attendance measure will establish daily attendance. A student will be considered absent if the student does not have documented engagement with the LMS and/or daily contact with the teacher and/or documentation of completion/turn in of daily assignments within the school day as defined in the local plan if it is a narrower window than the 24 hour day. A teacher or campus representative will input the student’s daily attendance into the Student Information System (SIS) for the asynchronous method for any day attendance occurred based on one of the above three methods by marking the student Remote Asynchronous Eligible Days Present. There is no requirement that remote asynchronous attendance must be posted in the SIS on the same day the engagement occurs. LEAs are free to develop policies and procedures that work best on their campuses.</p> <p>Note: A learning management system is any electronic system used for virtual instruction that provides data that can be used to document individual student engagement as defined in this section.</p> <p>Requirement 2: Minimum 240 Instructional Minutes A student must be offered an equivalent of four hours (240 instructional minutes) of daily instruction to be considered full-time. The instructional time must provide students access to the equivalent of instructional minutes that a student would be engaged in over a normal school year as documented in the publicly posted asynchronous plan. The number of instructional minutes students have access to must match or exceed 240 instructional minutes of daily minimums across all subjects for kindergarten through 12th grade. LEAs must maintain documentation of the plan for asynchronous instruction which demonstrates students have access to the minimum required number of daily instructional minutes.</p> <p>Requirement 3: Publicly Posted Asynchronous Plan The LEA must develop an asynchronous instructional plan as documentation for meeting the minimum instructional minutes and attendance requirements. The asynchronous instructional plan must include all of the following:</p> <ul style="list-style-type: none"> • the instructional schedule • a description of how students engage in instructional materials asynchronously (or through a combination of synchronous and asynchronous instruction) that demonstrates 240 instructional minutes are being provided • expectations for progress monitoring • expectations for support students will receive from a teacher <p>Note: The above will likely vary by grade level and subject.</p> <p>The LEA must post the asynchronous instructional plan publicly on the LEA’s website.</p>
